 **IMPORTANT ACCOUNT INFORMATION**

In consideration of the global COVID-19 pandemic, Wells Fargo temporarily paused exercising its right to setoff as otherwise allowable under your Deposit Account Agreement. Effective on or after January 1, 2023, Wells Fargo will resume exercising its right to setoff for overdrawn deposit account balances, where applicable. When we exercise this right, we may reduce funds in any account you hold with us for purposes of paying the amount of the debt, either due or past due, that is owed to us as allowed by the laws governing your account. Our right of setoff won't apply if it would invalidate the tax-deferred status of any tax-deferred retirement account (e.g., a SEP or an IRA) you keep with us. To review a copy of your Deposit Account Agreement, including the provisions related to the right of setoff, please visit wellsfargo.com/online-banking/consumer-account-fees/.

NEW YORK CITY CUSTOMERS ONLY -- Pursuant to New York City regulations, we request that you contact us at 1-800-TO WELLS (1-800-869-3557) to share your language preference.

Tax Season Reminder: Wells Fargo delivers tax documents - either by mail or online depending on your delivery preference - no later than January 31 or by the IRS deadline of February 15 for brokerage accounts. Depending on the U.S. Postal delivery service, you should expect to receive your tax documents no later than the end of February. You can update your tax document delivery preferences by visiting Wells Fargo Online®.

The Internal Revenue Service (IRS) requires Wells Fargo to report information regarding the amount of interest, dividend or miscellaneous income earned as well as gross proceeds from sales by providing you with various IRS Forms 1099 based on the different types of transactions that occurred in your account during the calendar tax year (the IRS reportable threshold). For example, if you have interest or dividends in the amount of \$10 or more during that timeframe, you will receive a Form 1099-INT from Wells Fargo.

BLUE-GREEN ALGAL BLOOM WEEKLY UPDATE

REPORTING OCT. 21 - OCT. 27, 2022

Satellite imagery provided by NOAA - Images are impacted by cloud cover.

A value of 0.004 is nominally equivalent to approximately 20-30 ug/L chlorophyll a of cyanobacteria, and 0.06 would be in the 300-500 ug/L chlorophyll a range. Please keep in mind that bloom potential is subject to change due to rapidly changing environmental conditions or satellite inconsistencies (i.e., wind, rain, temperature or stage).

SUMMARY

There were 18 reported site visits in the past seven days with 18 samples collected. Algal bloom conditions were observed by samplers at five of the sites.

On 10/17, the South Florida Water Management District performed two site visits. Dominant algal taxa and cyanotoxin results follow each waterbody name.

- **C43 Canal - S77 Structure (upstream):** No dominant algal taxon, no cyanotoxins detected.
- **C43 Canal - S79 Structure (upstream):** No dominant algal taxon, no cyanotoxins detected.

On 10/17, the St. Johns River Water Management District collected nine routine harmful algal bloom (HAB) monitoring samples.

- **Lake George - Center:** No dominant algal taxon, no cyanotoxins detected.
- **Stick Marsh - North:** No dominant algal taxon, no cyanotoxins detected.
- **Crescent Lake - Mouth of Dunns Creek:** No dominant algal taxon, no cyanotoxins detected.
- **Blue Cypress Lake - Center:** No dominant algal taxon, no cyanotoxins detected.
- **St. Johns River - Shands Bridge:** *Microcystis aeruginosa*, no cyanotoxins detected.
- **Doctors Lake - Center:** No dominant algal taxon, no cyanotoxins detected.
- **St. Johns River - Mandarin Point:** No dominant algal taxon, no cyanotoxins detected.
- **Lake Monroe - Center:** Results pending.
- **Lake Jesup - Center:** Results pending.

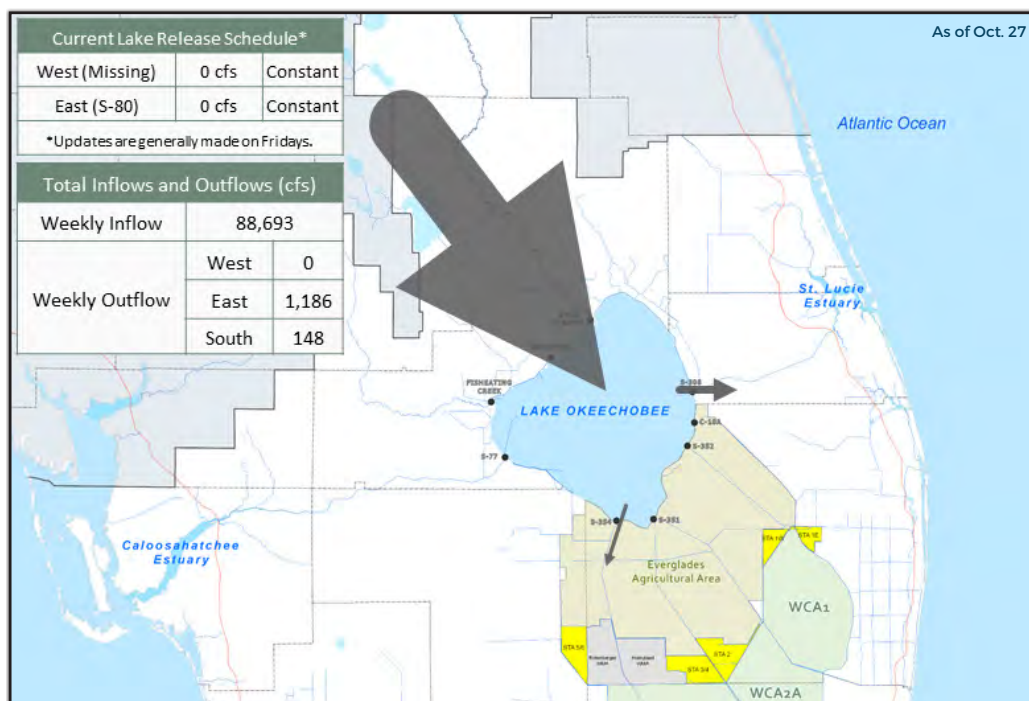

On 10/24-10/26, Florida Department of Environmental Protection (DEP) staff performed seven HAB response site visits.

- **Jupiter Park Drive Canal:** *Merismopedia sp.*, no cyanotoxins detected.
- **Caloosahatchee - Santa Fe Canal:** No dominant algal taxon, no cyanotoxins detected.
- **Lochloosa Lake - NE in veg:** *Microcystis aeruginosa*, trace level (0.25 parts per billion [ppb]) microcystins detected.
- **Lochloosa Lake - Entrance to Cross Creek:** *Microcystis aeruginosa*, no cyanotoxins detected.
- **183rd Ave Canal - Off Cross Creek:** No dominant algal taxon, no cyanotoxins detected.
- **Lochloosa Lake at Park:** No dominant algal taxon, trace level (0.25 ppb) microcystins detected.
- **Violet Lake - At 130 Violet Circle:** No dominant algal taxon, trace level (0.27 ppb) microcystins detected.

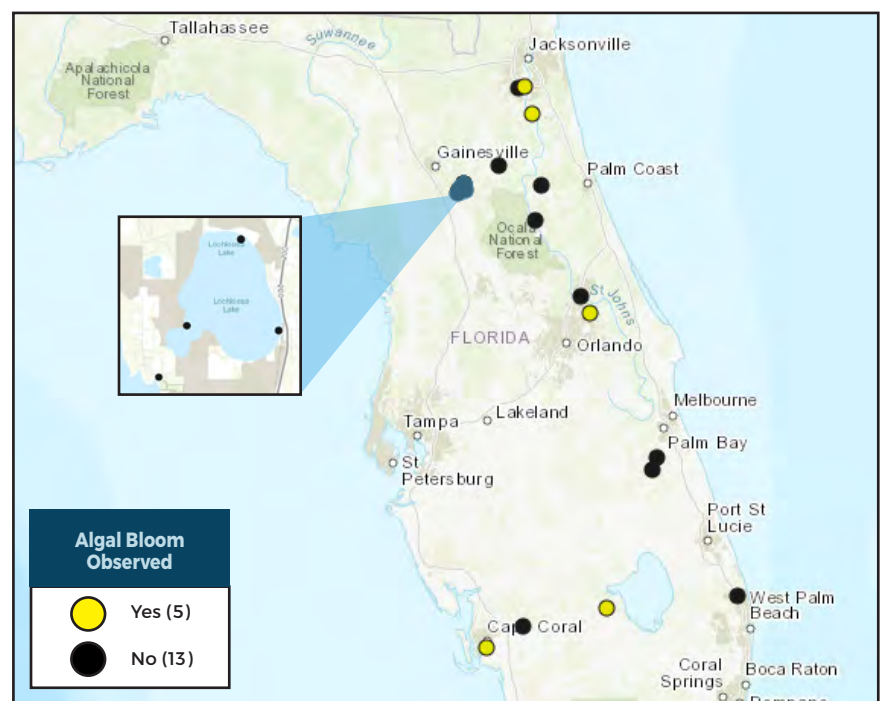

Results for completed analyses are available at FloridaDEP.gov/AlgalBloom.

This is a high-level summary of the sampling events for the reported week. For all field visit and analytical result details, please refer to the complete algal bloom map with data table by clicking the "Field and Lab Details" Quick Link from the Algal Bloom Dashboard. Different types of blue-green algal bloom species can look different and have different impacts. However, regardless of species, many types of blue-green algae can produce toxins that can make you or your pets sick if swallowed or possibly cause skin and/or eye irritation due to contact. We advise staying out of water where algae is visibly present as specks or mats or where water is discolored pea-green, blue-green or brownish-red. Additionally, pets or livestock should not come into contact with algal bloom-impacted water or with algal bloom material or fish on the shoreline.

Outdoor movies at Ryall house

Janice Broda mentioned that the Heritage Center in Vero Beach used to do some outdoor movies in the evenings and thought they had been well attended. She didn't think that they do them anymore and suggested that I ought to reach out to see if they, in fact, aren't using the equipment and perhaps might be interested in selling it.

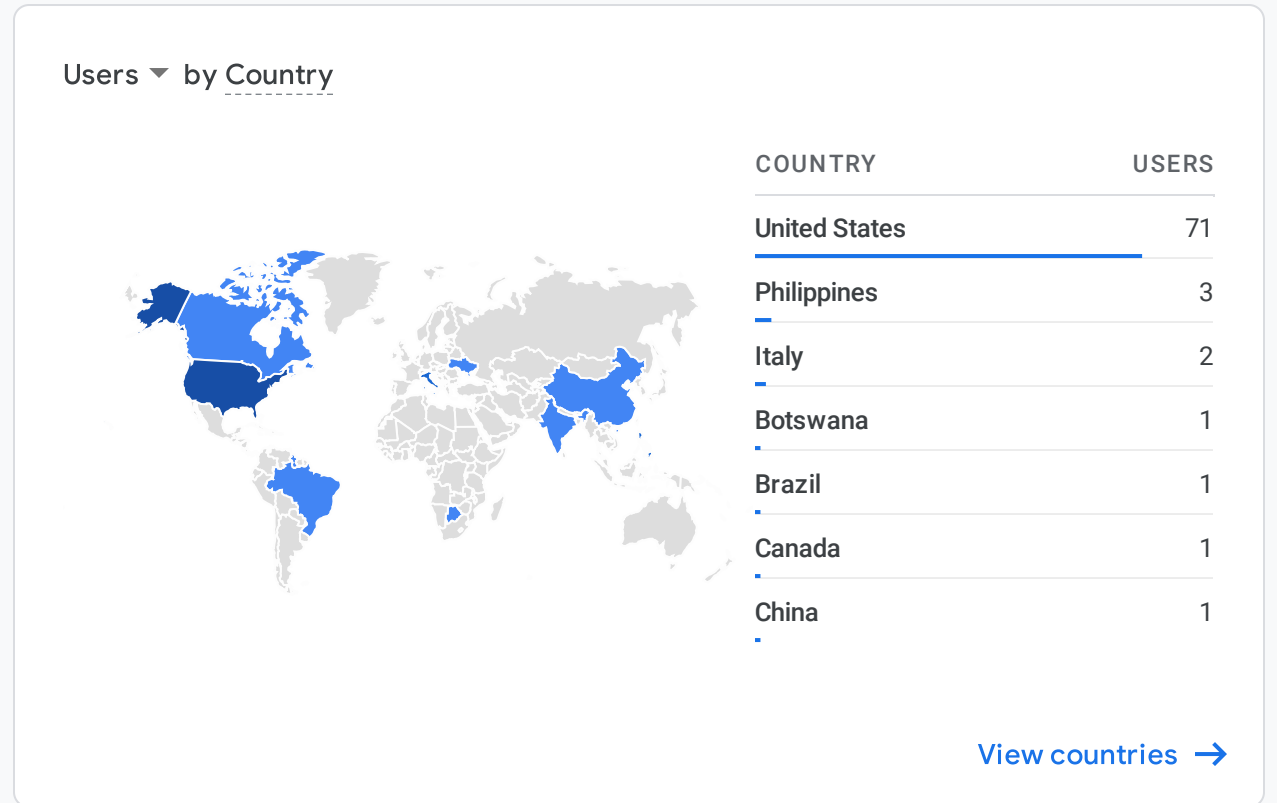

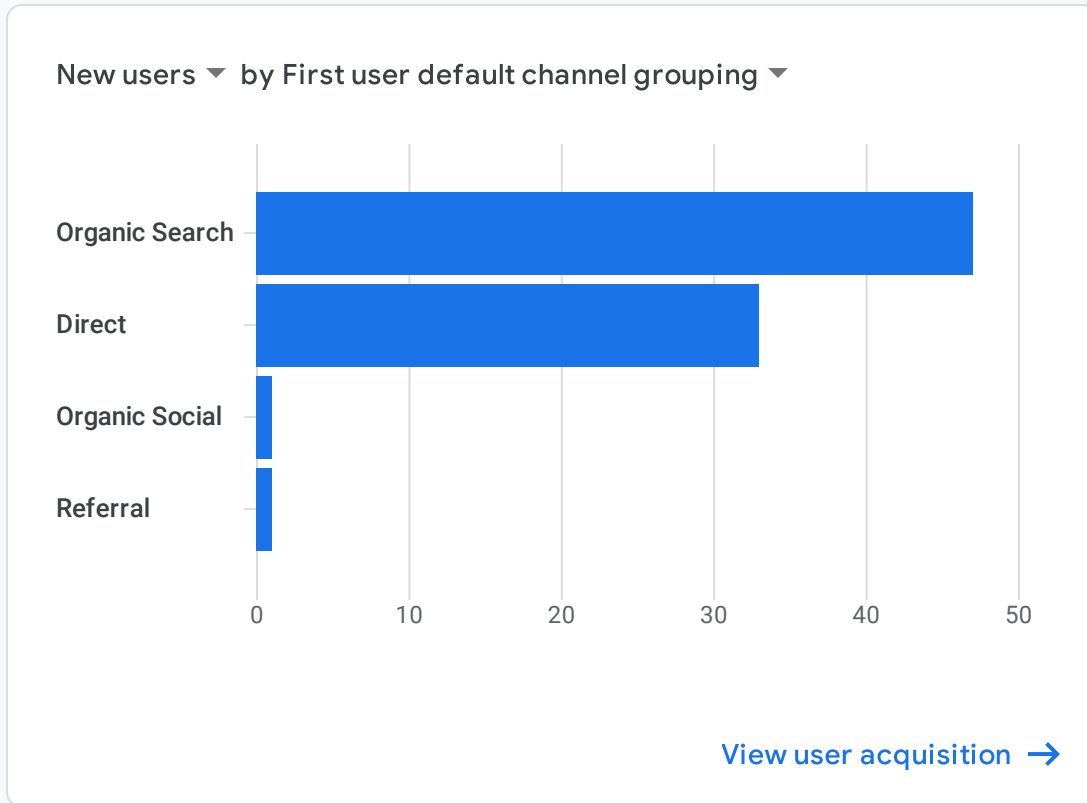

I spoke to Heather, the Executive Director at the Heritage Center and she said they only use the equipment a few times a year. It includes an inflatable rear-projection screen, sound equipment with two speakers, and the projector. Heather said it is pretty good equipment and thought that it is probably overkill for what they need – it was purchased before she went to work for them. There apparently is no current interest in selling the equipment but they do rent the equipment for \$450/event. She also pointed out there is a fee to show most films even if it is free event.

We already allow anyone to post. If someone posts something, Holly and I would be notified and one of us would have to approve it before it was published to our page. The only thing we could change is to let people post without approval which is an invitation to scammers so I wouldn't recommend it.

I have attached a screenshot of the current settings. The options are:

- Allow posting of anything without review and approval
- Allow posting of photos and video (currently allow)
- Posting of comments that must be approved before they are published (currently allow), or
