

FRIENDS OF ST. SEBASTIAN RIVER
BOARD OF DIRECTORS' MEETING AGENDA
TUESDAY, NOVEMBER 14, 2023 – 3pm, Ryall house/South Prong Preserve

CALL TO ORDER/ATTENDANCE

CALL FOR ADDITIONS/DELETIONS TO THE AGENDA

MINUTES FROM THE PREVIOUS MEETING(S) – p. 2

TREASURER'S REPORT – pp. 3-10

PRESIDENT'S REPORT – FWC/SOIRL St. Sebastian River oyster enhancement project; donation of Rex Basher art print from SSR member Judy Elseroad – pp. 11-12

UNFINISHED BUSINESS

Adopt-a-Road – awaiting response from IRC Public Works, re. Roseland Rd.

NEW BUSINESS

COMMITTEE REPORTS

Advocacy – Herrmann

SJRWMD permits – web portal inop, TBD

ACOE permits – none

River Oaks Preserve Conceptual Plan update, approved by City Council on Oct. 11th, with Dixon McPartlan voting against.

FDEP Blue-green algae report, Oct. 12, Stick March & Blue Cypress Lake – p. 13

IR Land Trust new acquisition – Stough property, South Prong – pp. 14-17

Postponed COS Natural Resources Board meeting, Nov. 14, 6pm – pp. 18-19

Education/Outreach – Bolton/Stephen

Nov. 28 FSSR meeting, North IR Library, Katherine Booth-Save Our Trees-Oaks

Env. Enhancement Award, nominations due by Oct. 31?

CR 510 road cleanup with SRHS

IR Lagoon Day door prize donation?

PIAS Transforming Landscapes conf., two free tickets/staffing FSSR table?

Financial – Greene

Governance – Herrmann – suggestions for new Advisory Directors

Information – Glover, website stats – p. 20

Membership – Herrmann, new members since Sep. - none

Publicity – Penny Phillips

Volunteer – vacant, new volunteer management system – TrackItForward.com; volunteer workday, Monday, Nov. 27; more in Dec.?

Round robin – December board meeting/Christmas party/New Year's party?

Adjournment

ANNOUNCEMENTS

1) Next BOD meeting – December 12, 3pm, Ryall house

2) IR Lagoon Day festival, Front Street Park, Melbourne, Nov. 18, 2023, 10am to 2pm – pp. 21-23

3) PIAS Transforming Landscapes Conference, Emerson Center, Jan. 20, 2024, 8am to 4:30pm

**FRIENDS OF ST. SEBASTIAN RIVER
BOARD OF DIRECTORS' MEETING MINUTES
OCTOBER 10, 2023--4 PM, RYALL HOUSE, SOUTH PRONG PRESERVE**

CALL TO ORDER/ATTENDANCE--Pres. Glover called the meeting to order at 4:05 pm. In attendance were Herrmann (vice-pres.), Peterson (secretary), and directors Bolton, Stephen, and Zingman. Greene(treasurer) had an excused absence.

CALL FOR ADDITIONS/DELETIONS TO AGENDA--None

MINUTES FROM PREVIOUS MEETING(S)(AP,p.2)--Bolton made a motion, seconded by Herrmann, that the Minutes from the Sept. 12th, 2023 meeting be approved and accepted; all voted in favor.

TREASURER'S REPORT(AP,pp.3-9)--Herrmann made a motion, seconded by Bolton, that the report be accepted for audit; all voted in favor.

PRESIDENT'S REPORT--Glover reported that his presentation to the Roseland Women's Club on October 3rd was received favorably.

UNFINISHED BUSINESS--ADOPT-A-ROAD--Director of Public Works fired; Roseland Rd. location discussed by members as a perfect choice for our purposes. Bolton will also contact Julia Held at SRHS to see if she can help line up interested students to do a cleanup on road in front of their school.

NEW BUSINESS--None

COMMITTEE REPORTS

Advocacy-Herrmann

SJRWMD permits-none

ACOE permits-none

City of Sebastian canal maintenance/herbicides, how to achieve long-term goal of changing the process--Glover will write a comprehensive letter to City Council, Mayor, City Manager, Chief Engineer and other authorities as our rep. on subject Clean Water Coalition of IRC Legislative Priorities(AP, pp.11-13)

Brevard IRL Coalition, Legislative Priorities Zoom webinar, Oct. 17, 12pm,

<https://helphelagoon.org/voices>(AP, p.14)

River Oaks Preserve conceptual Plan, Sebastian City Council final hearing/vote, Oct. 11th, 6pm.

Education/Outreach--Bolton/Stephen

Nov. 28th FSSR meeting, North IR County Library--possible speaker Katherine Booth on native tree conservation/saving live oaks. Backup speaker Joann McGrath on gopher tortoises?

South Prong Preserve signs cleaned

Env. Enhancement Award, nominations due by Oct. 31st

Financial--Greene-none

Governance--Herrmann-suggestions for new advisory directors?--none at this time

Information--Glover,website stats(AP,p.15)--website visits spiked over Labor Day

Membership--Herrmann, new member since August-Maarit Gagliardi(Peterson has sent thank-you note)

Publicity--Penny Phillips-none

Volunteer--vacant

Adjournment--Peterson made a motion, seconded by Stephen, that the meeting be adjourned at 5:10pm; all voted in favor.

Respectfully submitted,

Carol Lynn Peterson
FSSR Secretary

ANNOUNCEMENTS:

- 1) Open House--Saturday, Nov. 4th, 11-2, Ryall House Open House Prep Day, Friday, Nov. 3rd
- 2) Next FSSR BOD Mtg. Nov. 14, 3pm, Ryall House

REX BRASHER

Birds
&
Trees

Life

Legacy

DONATE

Rex Brasher (1869–1960) is one of America's great bird artists. His vast body of work—including nearly a thousand original

paintings and lyrical descriptions of every bird species in North America—has remained largely unknown to the public for the past century.

Our mission is to share the life of this enigmatic and prolific painter and allow his work inspire a new generation of bird enthusiasts. Please join our mailing list and check back often as we undertake the monumental task of bringing Rex Brasher's work back into the light.

Want to donate, volunteer, or chat? Drop us a line!

BLUE-GREEN ALGAL BLOOM WEEKLY UPDATE

REPORTING OCT. 6 - OCT. 12, 2023

Satellite imagery provided by NOAA - Images are impacted by cloud cover.

A value of 0.004 is nominally equivalent to approximately 20-30 ug/L chlorophyll a of cyanobacteria, and 0.06 would be in the 300-500 ug/L chlorophyll a range. Please keep in mind that bloom potential is subject to change due to rapidly changing environmental conditions or satellite inconsistencies (i.e., wind, rain, temperature or stage).

Caloosahatchee Estuary
Oct. 7, 2023

Satellite imagery for the Caloosahatchee Estuary shows no visible bloom potential.

Lake Okeechobee
Oct. 12, 2023

Satellite imagery for Lake Okeechobee is partially obscured by cloud cover but shows low bloom potential on approximately 5% of the lake, primarily in the southwestern quadrant.

St. Lucie Estuary
Oct. 7, 2023

Satellite imagery for the St. Lucie Estuary shows no visible bloom potential.

St. Johns River
Oct. 7, 2023

Satellite imagery for the St. Johns River shows scattered low bloom potential on Lake George and an area of low bloom potential on the mainstem of the river between Deep Creek and Colee Cove.

SUMMARY

There were 25 reported site visits in the past seven days with 25 samples collected. Algal bloom conditions were observed by samplers at one of the sites.

On 10/9-10/12, Florida Department of Environmental Protection staff collected 17 harmful algal bloom (HAB) response samples. The **Tiger Lake - Center** sample was dominated by *Microcystis wesenbergii* and had trace level (0.14 parts per billion [ppb]) microcystins detected. The **South Fork New River - Rio Nuevo A Condo** sample was co-dominated by *Microcystis aeruginosa* and *Chlamydomonas* sp. and had no cyanotoxins detected.

There was no dominant algal taxon and no cyanotoxins detected in samples from **Hancock Creek - Moody Ramp; Able Canal - Connie Ave N;** and 11 samples from the **Caloosahatchee River (West First St. and Altamont Ave; N of Loftons Island; Coral Point Dr; End of Coon Rd; Overiver Dr; Whitecap Cir Dock; End of Canal Cir; SE 32nd St; Jaycee Park; Horton Park; and McGregor Colonial Park).**

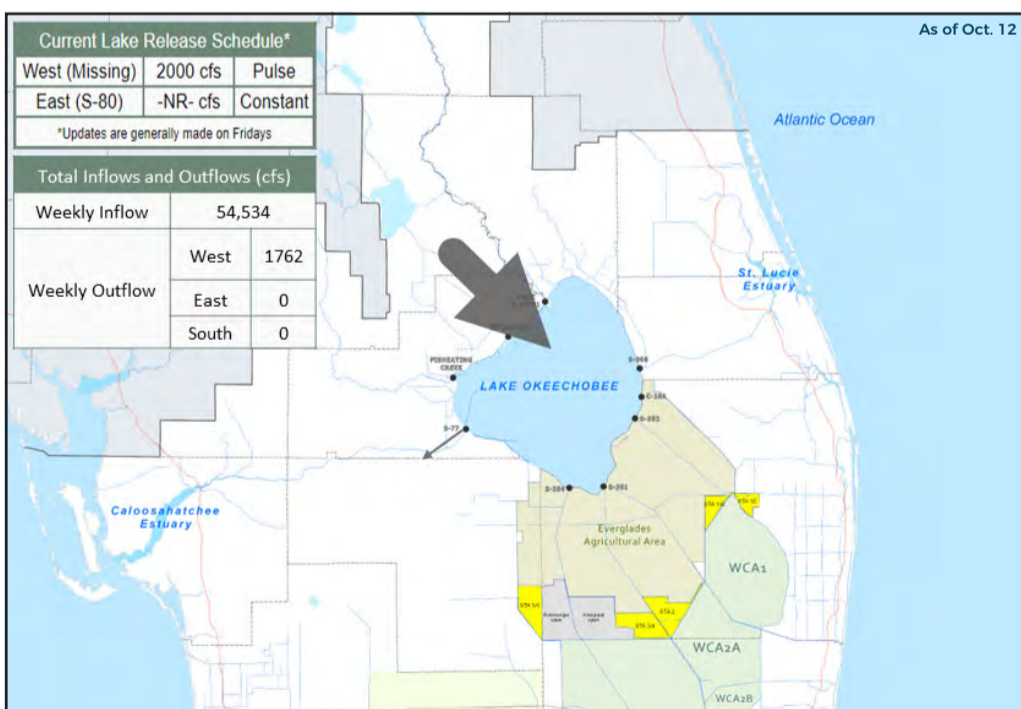

Results are pending for **Georges Lake - Boat Ramp** and **Doctors Lake - Doctors Lake Park.**

On 10/9-10/11, St. Johns River Water Management District staff collected one HAB response and seven HAB routine samples. The **St. Johns River - Shands Bridge; Doctors Lake - Center; St. Johns River - Mandarin Point; Lake George - Center; and M-canal just north of Blue Cypress Lake** samples had no dominant algal taxon and no cyanotoxins detected. The **Stick Marsh - North and Blue Cypress Lake - Center** samples were dominated by *Microcystis aeruginosa* and had no cyanotoxins detected. The **Crescent Lake - Mouth of Dunns Creek** sample was co-dominated by *Microcystis aeruginosa* and *Cylindrospermopsis raciborskii* and had no cyanotoxins detected.

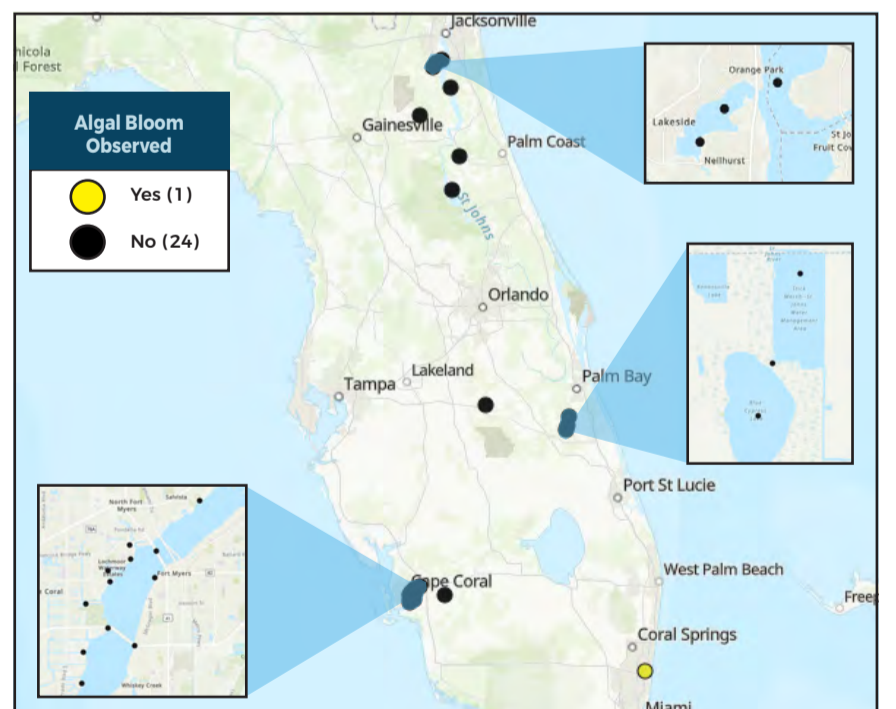

Results for completed analyses are available at FloridaDEP.gov/AlgalBloom.

This is a high-level summary of the sampling events for the reported week. For all field visit and analytical result details, please refer to the complete algal bloom map with data table by clicking the "Field and Lab Details" Quick Link from the Algal Bloom Dashboard. Different types of blue-green algal bloom species can look different and have different impacts. However, regardless of species, many types of blue-green algae can produce toxins that can make you or your pets sick if swallowed or possibly cause skin and/or eye irritation due to contact. We advise staying out of water where algae is visibly present as specks or mats or where water is discolored pea-green, blue-green or brownish-red. Additionally, pets or livestock should not come into contact with algal bloom-impacted water or with algal bloom material or fish on the shoreline.

Indian River Land Trust: Acquisition Announcement

We have big news to share!

The Indian River Land Trust recently acquired a new conservation property, adding 33 additional acres of protected green space. The property is located on the South Prong of the St. Sebastian River, along the southwestern border of the City of Sebastian.

In keeping with the Land Trust's recently adopted Strategic Plan and newly expanded reach across Indian River County, this is the first property protected by the Land Trust off the Indian River Lagoon. The St. Sebastian River is home to manatee, alligator, the prehistoric garfish, important bird rookeries, and species of globally rare fish. It is the only natural tributary of the Lagoon in the county, which underscores its conservation value to the Land Trust.

The property contains an Old Florida cypress forest that stood long before the cities of Sebastian and Vero Beach were incorporated. A portion of the property was formerly a citrus grove, but now contains 22 acres of native oak trees and cabbage palms that have replaced the orange trees. The remaining 11 acres encompass the mature cypress trees with 1,600 feet of river frontage. While not currently open to the public, the Land Trust hopes that this property will be the spark to realize a long-imagined greenway trail. Plans have recently resumed for a scenic nature trail along the river between Route 510 and Route 512, an area designated by the County as the St. Sebastian River Greenway. The effort to obtain this designation was originally spearheaded by the Land Trust in 2006. Working together with other local non-profits and municipal leaders, the Land Trust hopes that this vision will be realized in the foreseeable future.

This acquisition puts IRLT's new Strategic Plan into action!

The Land Trust has developed a new strategic plan that will guide our work through 2028. The acquisition of the Sebastian River property officially puts this plan into action, by expanding our reach out to the four corners of Indian River County.

The strategic plan outlines our new mission, vision, guiding principles, and strategic goals to continue our critical work of protecting and preserving the natural world around us.

As our community faces unprecedented growth, our natural lands and green places continue to disappear at a rapid rate. We remain focused on our work to protect our county's waterways, open spaces, and green places for future generations. We are excited for the many successes to come and hope you know that we can't do this work without you! Thank you for helping to ensure a brighter, greener future.
