Friends of St. Sebastian River To Clean Litter From Our River

Roseland, FL - Local citizens are banding together to tackle litter in the St. Sebastian River, as part of *National River Cleanup*® and the Ocean Conservancy's International Coastal Cleanup. Here's an opportunity to spend an hour or two physically doing something to help improve the health of an important tributary to the Indian River Lagoon.

On Sat. Sept. 15, the Friends of St. Sebastian River is cleaning up the shoreline of the St. Sebastian River. Volunteers are needed to assist in the cleanup. Youth groups are encouraged to participate. No advance registration is necessary.

Meet at 9:00AM at the south end of the US#1 bridge which crosses the mouth of the St. Sebastian River straddling the Indian River and Brevard County lines north of the City of Sebastian. The meeting location is the southwest side of bridge opposite the small Moore's Point County Park, just north of Erling Lane. The cleanup is expected to end by 11:00AM. Participants should come with gloves, sunscreen, bug spray, and wear shoes that can get wet and dirty. Cleanup supplies and water will be provided.

"The Friends of St. Sebastian River is committed to keeping the river clean so we can protect and restore it for us - and future generations. Participating in a river cleanup is one way that citizens can do their part for the river we all love," said Tim Glover, President of the Friends of St. Sebastian River.

For more information, call (772) 202-0501 or email info@fssr.org.

The mission of the Friends of St. Sebastian River is to maintain and improve the health and beauty of the St. Sebastian River and its watershed. For further information, visit the Friends' website: www.fssr.org
