- 6) ELC Lagoonapalooza, Jan 24, 2026, 10am to 5pm

**FRIENDS OF ST. SEBASTIAN RIVER
BOARD OF DIRECTORS MEETING AGENDA
TUESDAY, OCT. 14, 2025-9:45 AM, RYALL HOUSE, SO. PRONG PRESERVE**

CALL TO ORDER/ATTENDANCE--Pres. Glover called the meeting to order at 9:52 am. Present were Herrmann (vice-pres.) and Peterson (secy.) by phone. Also present were directors Bolton, Stephen, and Zingman. Treas. Greene had an excused absence.

CALL FOR ADDITIONS/DELETIONS TO AGENDA--Add to ANNOUNCEMENTS ORCA Open House on Thurs., Oct. 16 from 11am-3pm.

MINUTES FROM PREVIOUS MEETING(S)(AP, pp.2-3)--Herrmann made a motion, seconded by Bolton, that the Minutes from the Sept. 16, 2025 BOD meeting be approved; all voted in favor.

TREASURER'S REPORT(AP, pp.4-7)--Peterson made a motion, seconded by Herrmann, that the Treasurer's Report for Sept. 30, 2025 be accepted for audit; all voted in favor.

PRESIDENT'S REPORT--Ryall House deck replacement is up for bids by County and awaiting a contractor.

UNFINISHED BUSINESS

- 1) Adopt-a-Road--no response yet to request for a volunteer to coordinate this effort
- 2) St. Sebastian River road signs--we need a sign at 512/South Prong east and west.
Bolton sent a letter to Laura Moss as a concerned citizen; Glover will send an official letter to Moss as FSSR pres.

NEW BUSINESS

- 1) North IRC Library contract for 2026(AP, pp.8-9)--Stephen made a motion, seconded by Bolton, that we renew our contract for \$150; all voted in favor.
- 2) SRHS George Schum Award 2026--Herrmann made a motion, seconded by Stephen, that we continue to participate in this undertaking; all voted in favor.
- 3) Passing of Jane Schnee--Ideas were considered as to how to honor her passing.
How should we recognize her scrub-jay protection efforts? Perhaps we could add a bench to the St. Sebastian River Greenway? Glover will continue to investigate options.

COMMITTEE REPORTS

Advocacy-Herrmann

- 1) SJRWMD permits--Brevard Co./Micco Stormwater improvement permit #237403 (AP,pp. 10-13)
- 2) ACOE permits-none
- 3) FDEP, blue-green algae, Blue Cypress Lake & Stick Marsh(AP, p. 14)--no toxins

Education/Outreach--Bolton/Stephen

- 1) General Meetings--

- a) Nov. 25-ORCA/SSR pollution mapping (Bolton will follow up)
 - b) Need speakers for Jan., Mar., and May--perhaps Ken Grudens from IR Land Trust for Jan. mtg.?
 - 2) City of Sebastian Kids 'Fest thank-you email(AP, p.15)--Glover thanked Bolton and Hinck for providing live clam touch tanks, which kids loved.
 - 3) Wimbrow Park/River manatee signs-no progress
 - 4) Intl. Coastal Cleanup, Sept. 20, follow-up--we were awarded a plaque by Coastal Connections. We had less cleanup at the SS Bridge this year due to recent road work.
 - 5) Cypress Bend Preserve/pipefish habitat restoration project--replanting of smart weed was scheduled for after Labor Day under Ashley Lingwood's supervision. Perhaps she could be a speaker at a general mtg. in 2026?
 - 6) St. Sebastian River Preserve State Park swamp buggy tour, late Oct. or early Nov.?--Glover reported that he is still working on setting up another trip. Justin is very busy these days, so it may not be easy.
 - 7) IR Lagoon Day, Front St. Park, Melbourne, Oct. 18, 9am-2pm--we will participate.
- Financial--Greene--Our two CD's are not yet up for renewal. Bolton made a motion, seconded by Herrmann, that we place \$10,000 from our general fund into another CD; all voted in favor.
- Governance--Herrmann--no report
- Information--Glover--no update
- Membership--Herrmann--no Sept. renewals, no new members
- Publicity--Penny Phillips--no report. Glover asked Bolton to update our Facebook page with pics from Sebastian Kids 'Fest.
- Volunteer--vacant--Glover will make another appeal in next newsletter

Round Robin--Stephen brought up Audubon's recent presentation by Melissa Meisner for discussion.

Adjournment--Herrmann made a motion, seconded by Stephen, that the meeting end at 10:48 am; all voted in favor. Next BOD mtg.--Nov. 11, 9:45 am, Ryall House

Respectfully submitted,
Carol Lynn Peterson, FSSR Secretary

What is the best way to go about getting signs to mark the St. Sebastian River?

From: Diana Bolton <captainindianabolton@gmail.com>
Sent: Friday, September 26, 2025 4:19 PM
To: Laura Moss <lmoss@indianriver.gov>
Subject: Saint Sebastian River sign for Sebastian Blvd, 512.

CAUTION: This message is from an external source. Please use caution when opening attachments or clicking links.

Dear Commisioner Laura Moss,

Per our recent conversation, we are requesting east and west bound county signs on Sebastian Blvd, also known as 512, to mark the road river crossing of our beloved namesake, the St. Sebastian River in Indian River County.

Every day hundreds of cars pass over the St. Sebastian River with no clue of the river's location as the signs have been missing for decades.

Having spoken to the current and previous Indian River County managers, I was told a County Commisioner needs to request and approve in order to make this happen.

I humbly submit this request and an attached image, leaving it in your capable hands.

Thank you Commisioner Moss, for all you do for our County and it's people. So wonderful to see you, your efforts and actions at events and activities at so many public events and meetings.

It shows how much you truly care.

Warm regards,

Diana Bolton, Sebastian, Florida

About this item

- Enhanced 360° Voice Pickup with 4 AI Mics - The EMEET OfficeCore M0 Plus Bluetooth speakerphone features a four-mic array, which enhances voice pickup from any direction. Powered by EMEET's VoiceIA algorithm upgraded in 2023, the mic can filters out background noise and eliminates echos of the speaker.
- Crystal-Clear Audio Quality - The 3W high-quality bluetooth conference speaker can spread sound evenly throughout the room, ensuring no details are missed. With full duplex audio support, our conference speaker produces natural and rich sounds, so to feel like you are talking to others in person.
- Expandable for Larger Meetings - Room is too large? Link 2 EMEET's Bluetooth speakerphones with the Daisy Chain, you will have 2x professional mics and speakers working seamlessly extending the conferencing space, effectively supporting up to 16 attendees. This feature supports multiple models of EMEET products, such as Meeting Capsule, M3, or M0 Plus, making it a flexible solution for setting up your conference room.
- Easy to Set Up and Use - The EMEET Conference Speaker and Microphone M0 Plus offers 2 ways to connect: USB-C and Bluetooth 5.0. No drivers or additional software is required, simply plug and play. The speakphone is compatible with most conferencing platforms, such as Zoom, Microsoft Teams, Skype, Slack, Webex, and etc. Mobile phones applied with commonly used Bluetooth Protocol on the market can be connected to M0 PLUS through Bluetooth, and there are no restrictions on brand and model.
- Long Battery Life for Optimal Performance - Equipped with a large capacity battery, the M0 Plus Bluetooth conference speaker with microphone supports long-term calls over 10 hours of talk time on a single charge, making it perfect for all-day meetings. The M0 Plus Bluetooth Conference Speakerphone is optimal for use in the meeting room, home office, or on business trips, ensuring that you always have a professional meeting experience.

**ANNOUNCEMENT OF
LOCATION AND DESIGN CONCEPT ACCEPTANCE**

CR 510 Project Development and Environment (PD&E) Study
From 58th Avenue to East of SR 5/US-1
Indian River County, Florida

Financial Management: 441692-1-22-02
Efficient Transportation Decision Making (ETDM): 14492

On October 27, 2025, the Florida Department of Transportation (FDOT), pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated May 26, 2022, and executed by the Federal Highway Administration and FDOT, granted Location and Design Concept Acceptance for the CR 510 Project Development and Environment (PD&E) Study from 58th Avenue to East of SR 5/US-1.

This project consists of the partial grade separation of CR 510 over the FEC Railway and over the SR 5/US-1 intersection. The proposed improvements will widen CR 510 from two to four lanes by providing two lanes at-grade (one in each direction) and two lanes over the railway and over the SR 5/US-1 intersection (one in each direction). All turning movements at the SR 5/US-1 intersection are provided using the at-grade lanes, and non-stop through movements are provided using the grade separated lanes. This project will provide bicycle lanes along CR 510, a sidewalk along the north side of the roadway, and a shared use path along the south side of the roadway. The bicycle lanes, sidewalk, and shared use path will remain at grade.

This project will now proceed to the next phase of development.

October 30 2025

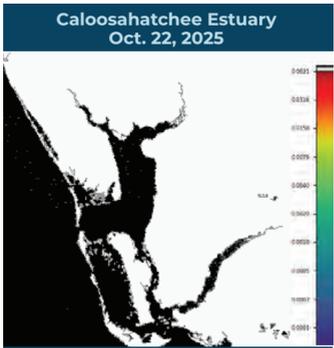

BLUE-GREEN ALGAL BLOOM WEEKLY UPDATE

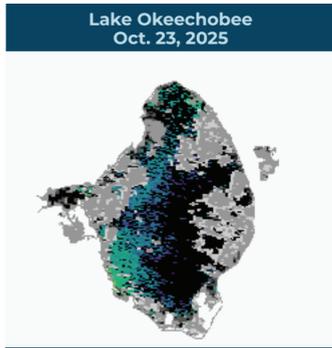

OCT. 17-OCT. 23, 2025

Satellite imagery provided by NOAA - Images are impacted by cloud cover.

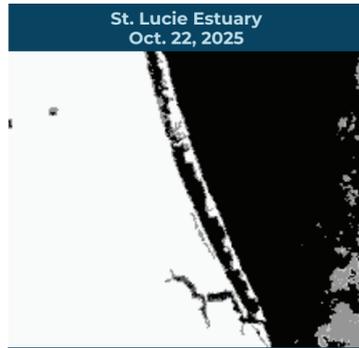

A value of 0.004 is nominally equivalent to approximately 20-30 ug/L chlorophyll a of cyanobacteria, and 0.06 would be in the 300-500 ug/L chlorophyll a range. Please keep in mind that bloom potential is subject to change due to rapidly changing environmental conditions or satellite inconsistencies (i.e., wind, rain, temperature or stage).

The best available satellite imagery for the Caloosahatchee River from 10/22 is partially obscured by cloud cover and shows scattered low bloom potential on visible portions of the upper estuary.

The satellite imagery for Lake Okeechobee from 10/23 is partially obscured by cloud cover and shows low to medium bloom potential on approximately 40% of the lake. The highest bloom potential is in southwest portion of the lake.

The best available satellite imagery for St. Lucie River from 10/22 is partially obscured by cloud cover and shows highly scattered low bloom potential.

The best available satellite imagery for St. Johns River from 10/22 shows scattered low to moderate bloom potential on Lake George downstream to the Arlington River.

Effective Oct. 31, 2025, the weekly blue-green algae report will be phased out as we transition to the [water quality dashboard](#) at [ProtectingFloridaTogether.gov](#). This interactive platform provides real-time statewide data on water quality, blue-green algae and red tide.

Sign up for email or text alerts at [ProtectingFloridaTogether.gov](#) to stay informed about conditions in your area.

SUMMARY

Oct. 17–Oct. 23 — There were 17 reported site visits in the past seven days with 17 samples collected. Algal bloom conditions were observed by samplers at nine of the sites.

On 10/20–10/23, Florida Department of Environmental Protection staff collected 11 Harmful Algal Bloom (HAB) response samples. Dominant algal taxa and cyanotoxin results follow each waterbody name.

- Thomas Lake – Center:** *Microcystis aeruginosa* and *Raphidiopsis raciborskii* co-dominant; no cyanotoxins detected.
- Lake Summit – at Boat Ramp:** *Microcystis aeruginosa*; trace level [0.1] parts per billion (ppb) of cylindrospermopsin detected.
- Lake Okeechobee – S308C (lakeside):** No dominant algal taxon; no cyanotoxins detected.
- C44 canal – S308C:** No dominant algal taxon; no cyanotoxins detected.
- Lake Echo – Northwest:** *Microcystis aeruginosa*; 1.1 ppb cylindrospermopsin detected
- Lake Crago – by Boat Ramp:** *Microcystis wesenbergii*; no cyanotoxins detected.
- Lake Thonotosassa – Center:** *Dolichospermum circinale* and *Planktolyngbya limnetica* co-dominant; trace level (0.88 ppb) of cylindrospermopsin detected.
- Veterans Memorial Park Pond:** *Planktolyngbya limnetica* and *Planktolyngbya contorta* co-dominant; 2.2 ppb microcystins detected.
- Kell-Aire Lake:** *Microcystis aeruginosa* and *Raphidiopsis raciborskii* co-dominant; trace level (0.80 ppb) microcystins detected.
- Lowry Park Spring:** No dominant algal taxon; no cyanotoxins detected.
- St. Johns River – Buzzard Island:** Results pending.

On 10/22, South Florida Water Management District staff collected three HAB response samples. Dominant algal taxa and cyanotoxin results follow each waterbody name.

- Lake Okeechobee – S352:** No dominant algal taxon; no cyanotoxins detected.
- Lake Okeechobee – Pahokee Marina:** No dominant algal taxon; trace level (0.11 ppb) of cylindrospermopsin detected.
- Lake Okeechobee – S354:** *Microcystis aeruginosa* and *Dinophyceae* co-dominant; 15 ppb microcystins and a trace level (0.15 ppb) of cylindrospermopsin detected.

On 10/21, St. Johns River Water Management District (SJRWMD) staff collected three routine HAB monitoring samples. Dominant algal taxa and cyanotoxin results follow each waterbody name.

- Lake Washington – Center:** No dominant algal taxon; no cyanotoxins detected.
- Lake Jesup – Center:** *Microcystis aeruginosa* and *Raphidiopsis raciborskii* co-dominant; trace level (0.11 ppb) of cylindrospermopsin detected.
- Lake Monroe – Center:** No dominant algal taxon; no cyanotoxins detected.

Last week

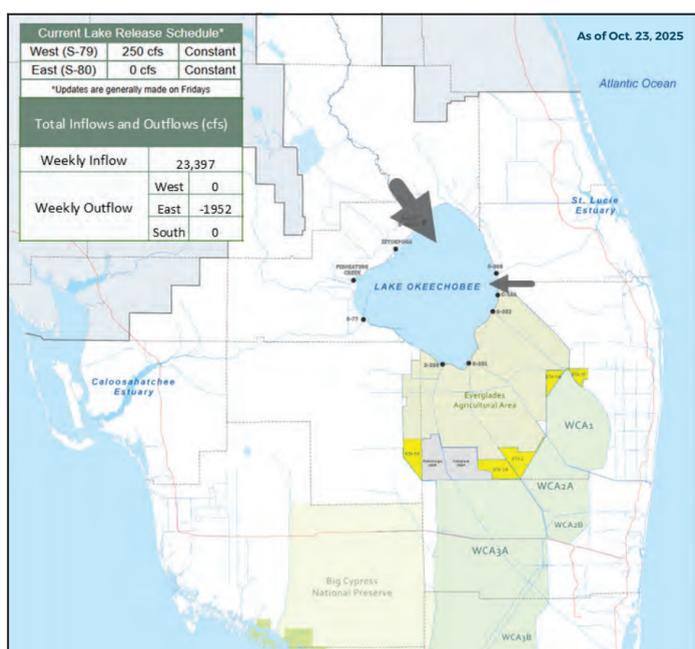

On 10/16, SJRWMD staff collected three HAB response samples. Dominant algal taxa and cyanotoxin results follow each waterbody name.

- Blue Cypress Lake – Center:** *Microcystis aeruginosa*; no cyanotoxins detected.
- Stick Marsh – North:** No dominant algal taxon; no cyanotoxins detected.
- Crescent Lake – mouth of Dunns Creek:** No dominant algal taxon; no cyanotoxins detected.

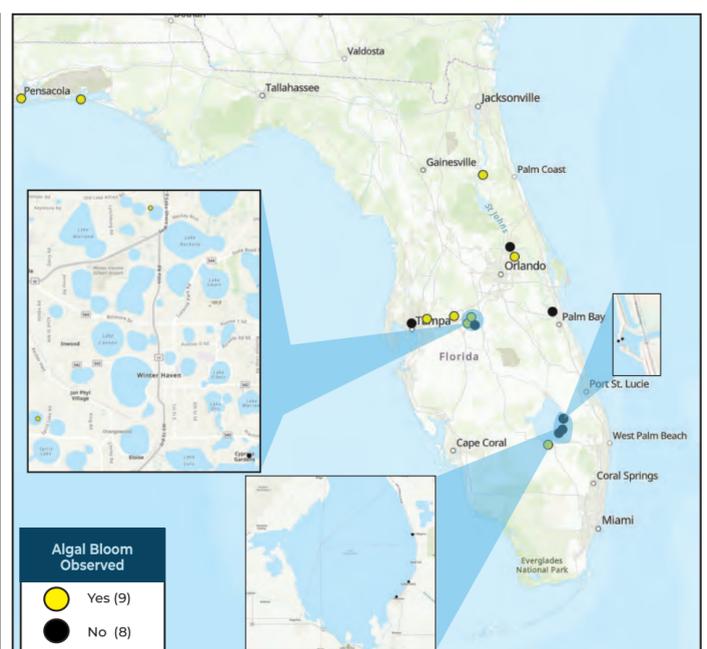

Results for completed analyses are available at [FloridaDEP.gov/AlgalBloom](#).

This is a high-level summary of the sampling events for the reported week. For all field visit and analytical result details, please refer to the complete algal bloom map with data table by clicking the "Field and Lab Details" Quick Link from the Algal Bloom Dashboard. Different types of blue-green algal bloom species can look different and have different impacts. However, regardless of species, many types of blue-green algae can produce toxins that can make you or your pets sick if swallowed or possibly cause skin and/or eye irritation due to contact. We advise staying out of water where algae is visibly present as specks or mats or where water is discolored pea-green, blue-green or brownish-red. Additionally, pets or livestock should not come into contact with algal bloom-impacted water or with algal bloom material or fish on the shoreline.

**AMERICAN
RIVERS**
ACTION FUND

The only organization building political power for rivers

Rivers make life possible — but across our country, many rivers are at a breaking point. The problems facing our rivers are urgent, but not inevitable.

What's missing is political power. In too many places, elected officials have failed to protect the waters we rely on.

That's where the American Rivers Action Fund, an affiliate of American Rivers, comes in.

We are building the political muscle to protect rivers and clean water — not just to block harmful policies, but also to create bold, proactive change.

Our goal: To organize a durable, bipartisan coalition of voters, elected officials, and public champions — the River Majority — who view clean water not as a special interest, but as a shared value and political priority.

- ADVERTISEMENT -

The American Rivers Action Fund focuses on four high-impact strategies:

Public ballot measures:

We back locally led initiatives that deliver wins for clean water and local economies.

State and local advocacy:

We advance forward-looking water policy.

Messaging and narrative change:

We invest in research-backed communications and storytelling that connects healthy rivers to healthy communities, strong economies, and shared stewardship of our outdoor heritage.

Building champions:

We support elected leaders who champion river priorities — from local officials to members of Congress.

Winning for water

We recently helped pass Colorado's Proposition JJ with 76% support, working with partners such as the Colorado Cattlemen's Association to secure funding for river health and infrastructure. The measure had broad bipartisan backing.

We also launched a research project to equip partners and policymakers with messaging strategies proven to bridge divides.

Looking forward, our aim is to make river protection a political norm, from statehouses to the national stage.

Turning river values into river victories

The mission of the American Rivers Action Fund is to build a bipartisan River Majority and advance wins for clean, safe water and healthy rivers for people and wildlife.

Your RSVP is free and automatically enters you into the **ChoZen Raffle** with three incredible prizes:

🌿 **Safari Weekend for Two** (\$2,000 value) – two nights of connection, comfort, and adventure

💧 **Wellness Escape Day for Two** (\$222+ value) – a full day of relaxation, flow, and nature

🍪 **ChoZen Gift Card** (\$111 value) – use it at the Café, Casa Colibrí boutique, or for future events

You must RSVP and be present at **3:30 PM this Sunday** to win. Don't wait. Space is limited and excitement is high.

RSVP TO ATTEND

Live Music & Special Performances by

Enjoy a full day of music and community featuring:

- **Sarah Lee Guthrie** – heartfelt, folk-inspired sound and storytelling
 - **Tricky McSmadigan** – high-energy rhythms and good vibes
 - **Keyse!** – soulful and uplifting grooves
 - **Scarlett De La Torre** – closing DJ set that fills the garden with beauty and sound
